

National Association of Clean Water Agencies

**2024 Peak Performance Awards  
Application Packet**

# Instructions for NACWA Peak Performance Awards Application – 2024

---

## Eligibility

All treatment facility applicants must be publicly owned by a current NACWA member agency and be in operation for at least one month or more during 2024. Treatment facilities must provide, at minimum, secondary treatment, or advanced primary treatment with a 301(h) waiver. Treatment facilities of all sizes are eligible (i.e., no minimum hydraulic design capacity). Facilities must operate under a Federal or state equivalent NPDES permit, an underground injection control permit, or a state control mechanism that regulates effluent quality and reuse of reclaimed flows.

### 1. Agency Name

**\*\* Please indicate the name of the agency as it should appear on the award certificate.**

### 2. Facility Name

**\*\* Please indicate the name of the facility as it should appear on the award certificate.**

### 3. Facility Address

Please indicate the location address of the facility.

### 4. Contact

Please indicate the person to contact regarding questions on the award application. This person will also receive a confirmation by email upon receipt of the application, unless otherwise indicated.

### 5. Contact Phone / Email

Please indicate the phone and email information for the person to contact regarding questions on the award application. If an email is not provided, the contact will not receive a confirmation of application receipt.

### 6. Facility Effluent Quality for 2024

Please summarize the facility's effluent results for the requested parameters. For flow, indicate the average daily flow in million gallons per day (MGD) when the facility is in operation. For the remaining parameters, (BOD, CBOD, TSS, ammonia-nitrogen, and phosphorus), please indicate (if available) the average effluent concentration (milligrams per liter) for 2024.

### 7. Permit Number

Please indicate the applicable state or federally-issued permit number for the facility. If the facility does not have a federal or state-equivalent NPDES permit regulating discharge to surface water (i.e. uses deep well injection, infiltration from surface basin, agricultural or landscaping reuse, etc.), please provide the applicable federal or state permit number that regulates treated effluent flows from the facility.

*Note: Please complete a separate application sheet for each regulated outfall in the applicable permit. Indicate the outfall number at the end of the permit number (e.g. XX34000500-001, XX34000500-002 for outfalls 001 and 002).*

### 8. Design Capacity

Please indicate the average daily design flow in million gallons per day (MGD) for the plant.

### 9. Treatment Level

Please indicate the highest level of treatment attained at this treatment plant for the majority of flows treated. If the facility attains higher removal of pollutants (e.g., nutrients) beyond traditional secondary levels within the existing secondary treatment structures, indicate "advanced secondary treatment." Respond with "tertiary treatment" if the plant has additional physical structures/units (e.g., filters), providing physical, chemical, or additional biological treatment to remove nutrients or other parameters.

### 10. Application For (Award Type)

Circle or highlight the award for which this facility is applying. The available awards include:

- **Platinum Awards:** *Platinum Awards* recognize 100% compliance with permits over a consecutive five-year period. *Platinum Awards* will be given to facilities with a consistent record of full compliance for the calendar years of 2020 through 2024. This application packet contains a list of facilities that, based on NACWA's records, are eligible for a *Platinum Award* if the facility once again attains full compliance for the entire 2024 calendar year. If your agency has a facility that you believe is eligible for a *2024 Platinum Award*, but is not included on the enclosed list, please email a copy of your *Gold Award* certificates from the past four years (2020, 2021, 2022, and 2023) to Mark Hoeke at [mhoeke@dfinet.ch](mailto:mhoeke@dfinet.ch).

Also, *Platinum Award* certificates show the number of consecutive years in full compliance. If your facility has attained full compliance for a longer consecutive time period than shown in the attached list of facilities, and you would like this to be reflected on the 2024 *Platinum Award* certificate, please submit additional award applications for prior years (must be consecutive with time period listed).

- **Gold Awards:** *Gold Awards* recognize 100% compliance with permits for the past calendar

---

year, and are presented to facilities with no permit violations in 2024.

- **Silver Awards:** *Silver Awards* are presented to facilities with no more than five permit violations in 2024.

## 11. Total Permit Violations

Please indicate the number of permit violations the facility experienced in 2024.

## 12. Total Compliance Points

To determine the number of compliance points, you should determine how many comparisons of analytical result data (either individual sample results, or aggregated averages), have been made with the facility's permit limits. For instance, if the facility effluent is sampled daily for BOD and has daily, weekly, and monthly concentration limits in its permit, the total number of compliance points would be calculated by summing up the number of comparisons made to the permit limits. This would include 366 daily sample results plus 52 weekly averages, plus 12 monthly averages (366 + 52 + 12 = 430 compliance points). Daily, weekly, and monthly mass limitations for BOD would add another 430 compliance points. Another example would be parameters with solely monthly average limits that are sampled once per year. These would constitute one compliance point each. For each limited parameter that is monitored continuously in 2024, please use 366 compliance points.

### What Parameters Should Be Reported?

Include all parameters specified in the facility's NPDES permit, or other applicable federal or state permit that have specific effluent limitations. With the exception of facility flow rates, do not include parameters that have monitoring only requirements. You may change the units reported on the form, if your permit or sampling program uses different units.

Please use the Excel spreadsheet application form where possible, however, if the survey form is not adequate to show all permit requirements and discharge results, it may be modified (e.g., replace BOD with CBOD) or a separate table may be submitted. For example, if the permit has daily, seasonal, or other limits the table should list these and indicate the number of violations. If a separate table is submitted, please ensure that it includes responses to questions 1 to 12.

Please report average daily flow for each month, even if flow is not limited in your permit, however, do not include a flow limit, unless exceedances of the limit are considered violations of the permit.

### Number of Violations

For each parameter limited in your NPDES permit, list the number of permit violations (if any), occurring in the calendar year. If the facility is not regulated under an

NPDES permit, please indicate the number of violations (if any) with the applicable federal or state permit that regulates treated effluent from this facility in the calendar year.

### What to Submit

Each application must include a copy of the applicable federal or state-issued NPDES permit requirements (except for those facilities with permits already on file with NACWA as discussed below). You need only submit the portion of the permit directly applicable to your effluent limitations. A copy of a completed Discharge Monitoring Report (DMR) from a typical month that includes permit limitations may be substituted for a copy of the permit requirements.

If the facility is not regulated under an NPDES permit, please include a full copy of the federal or state permit that regulates the treated effluent from this facility, e.g. underground injection permit, state permit or order regulating reuse, etc.

If your facility submitted a copy of permit limits along with a *Peak Performance Award* application in any year between 2014 and 2023, AND the facility's permit limits have not changed, you do not need to include a copy of the facility permit requirements for 2024. NACWA has provided a list of facilities with permit requirements already on file in this application packet.

### How to Submit Your Application

Email your application directly to Mark Hoeke at [mhoeke@dfinet.ch](mailto:mhoeke@dfinet.ch). It is suggested to attach only one compiled PDF file which would contain any correspondence and award application(s). Copies of permit limits (if necessary) can be included in the single PDF file, though it is preferred to send copies of permit limitations as separate PDF files. The body of the email should indicate the name(s) of plant(s) applying and which are included in the PDF file.

While PDF format is preferred, emailed Excel application files are still accepted in either separate or tabbed workbook files. **Also, please note that mailed hard copy applications are no longer an accepted form of award submittal.**

If you would like an electronic copy of the Excel spreadsheet application, this file may be downloaded from NACWA's web site, ([www.nacwa.org](http://www.nacwa.org)). Completed forms may be emailed to: Mark Hoeke at [mhoeke@dfinet.ch](mailto:mhoeke@dfinet.ch).

---

## **Will I Receive a Confirmation That My Award Has Been Received?**

After submitting your award application via mail or e-mail, you (or the contact listed on the application) should receive a confirmation by e-mail (if provided) within ten working days from the date of submitting your application. If you do not provide an email where you can be reached, you will not receive a confirmation. **If you do not receive an e-mail receipt within 10 days of your e-mailed or mailed submittal, please contact Mark Hoeke at [mhoeke@dfinet.ch](mailto:mhoeke@dfinet.ch) to confirm receipt.**

## **Deadline for Submittals**

Award applications must be submitted by **March 31, 2025**.

## **Questions?**

Please contact Mark Hoeke via email: [mhoeke@dfinet.ch](mailto:mhoeke@dfinet.ch) with any questions you may have regarding completion of the *Peak Performance* application form. General questions about the *Peak Performance Award Program* and awards presentation should be directed to Bredy Trombino, at NACWA's National Office, phone: 202/833-2672 or e-mail: [btrombino@nacwa.org](mailto:btrombino@nacwa.org).

\*\*\* Thank you for your interest in NACWA's *Peak Performance Awards Program* \*\*\*

## 2024 NACWA PEAK PERFORMANCE AWARD APPLICATION

### NPDES PERMIT REQUIREMENTS AND PLANT DISCHARGE PERFORMANCE RESULTS

\* Please indicate the agency and facility names as they should appear on the award certificate

1. Agency Name \*: \_\_\_\_\_

2. Facility Name \*: \_\_\_\_\_

3. Facility Address \_\_\_\_\_

- Notes: Please indicate the agency and facility names as they should appear on the award certificate, also:
- 1) Include all parameters specified in NPDES (or other federal/state) permit (add rows if necessary)
  - 2) If NPDES (or other federal/state) permit includes seasonal limits, indicate and include

## Potential 2024 Platinum Award Honorees

The following facilities have attained four or more consecutive years of full compliance with NPDES effluent limitations ending in calendar year 2023. If a listed facility once again attained full compliance for the entire 2024 calendar year, it will be eligible to receive a 2024 NACWA *Platinum Award*. A record of full compliance from four to 35 consecutive years is indicated alongside each facility name below. Please note that *Platinum Award* certificates will show the number of consecutive years in full compliance. If your facility has attained full compliance for a longer consecutive time period than listed, and you would like this to be reflected on the 2024 *Platinum Award* certificate, please submit additional award applications for prior years (must be consecutive with time period list below).

Cheat Lake Wastewater Treatment Plant (1999-2023)  
Morgantown Wastewater Treatment Plant (2001-2023)

## Copies of NPDES (or State) Permit Requirements Submitted for 2013 to 2022 Peak Performance Awards

If your facility submitted a copy of its NPDES (or state) permit limit pages along with a 2014, 2015, 2016, 2017, 2018, 2019, 2020, 2021, 2022, or 2023 NACWA *Peak Performance Award* application, AND the facility's permit limits have not changed since the copy was submitted, you do not need to include a copy of the facility NPDES (or state) permit requirements for 2024. Below is a list of submitted copies of NPDES (or state) permit requirements that are currently on file (the date following the facility name indicates when the most recent permit copy was received by NACWA). It is requested that applicants resubmit permit requirements if the last time permit requirements were submitted was prior to 2014.
